Information on Cookies

What are cookies

A "cookie" is a text file saved on the user's computer when he accesses a website with the purpose of providing information every time the user returns to the same site. It is a sort of reminder of the visited internet page. With the cookie, the web server sends information to the user's browser (Internet Explorer, Mozilla Firefox, Google Chrome, etc.) stored on the computer of the latter, and will be re-read and updated each time the user returns to the site. In this way the website can automatically adapt to the user. During navigation, the user may receive on his terminal also cookies from different sites ("third party" cookies), set directly by the operators of said websites and used for the purposes and according to the procedures defined by them.

Depending on their duration, they are divided into session cookies (ie the temporary ones and automatically deleted from the terminal at the end of the browsing session, closing the browser) and persistent cookies (ie those that remain stored on the terminal until their expiration or cancellation by the user).

Depending on the function and purpose of use, cookies can be divided into technical cookies and profiling cookies.

Technical cookies

Some cookies are used to perform computer authentication, monitoring sessions and storing specific information about users accessing a web page. These cookies, so-called technical, are often useful to allow you to browse a website and use all the features. Technical cookies are those whose use does not require the user's consent.

The analytics cookies also belong to this category. These are cookies that collect information about the use that a user makes of a website and that allow to improve its operation. For example, the analytics cookies show which pages are most frequently visited, allow you to check what are the recurrent patterns of use of a website and help to understand every difficulty that the user encounters in use.

Profiling cookies

Other cookies can instead be used to monitor and profile users while browsing, to study their movements and habits of web browsing or consumption (what they buy, what they read, etc.), also for the purpose of sending advertising of targeted services and custom. In this case we speak about profiling cookies. The use of these cookies requires the prior acquisition of the free informed consent of the user pursuant to art. 7 of the 2016/679 EU Regulation.

Third-party cookies

It can also happen that a web page contains cookies from other sites and content in various elements hosted on the page itself, such as banner ads, images, videos, maps or specific links to web pages of other domains that reside on servers other than on which the requested page is located. In other words, these cookies are set directly by managers of websites or servers other than this website. We speak, in these cases, so-called third-party cookies, which are usually used for profiling purposes. The use of these cookies requires the prior acquisition of the free informed consent of the user.

Types of cookies used by our site

The main functions of cookies installed by <https://www.standardse.eu/> are techniques, are used to constantly improve the service, for authentication, for statistical purposes, such as counting visits to the site.
